

## Agriculture News

Our Agriculture students are working hard to prepare some cattle for this year's Fraser Coast Show.

If there are any parents who have some experience in training cattle, and wouldn't mind coming in on a Monday afternoon to help the students, we would really appreciate your help.

Also, if you would like to help, but are unable to during the week, we could try to organise some time on a weekend for students to come in and work with you. Thanks for your help.

The photo is of the Cattle Feeder that the students have been putting together over the last few weeks.

**Riverside Christian College, would like to thank the Owners of Advantage Feeders** who helped to sponsor this Feeder.
